

EMERGENCY RESPONSE AND EVACUATION PROCEDURES STATEMENT

Once an emergency is discovered, immediate response is essential to minimize loss of life and property. The knowledge of proper procedures in responding to the emergency is vital to properly handle the situation.

Whenever an alarm sounds or an emergency alert is issued, all occupants must, in the event of evacuation being necessary, meet at the emergency evacuation safe location as instructed. In the case of an actual fire or other emergency, students will be moved to a designated alternate shelter area until notified it is safe to return to the residence hall. Students should close their door as they leave their rooms. Students who do not vacate the building during the sounding of the alarm or an emergency alert will be subject to disciplinary action.

Whenever an emergency occurs, the following procedures should be taken:

1. Stay calm, move quickly, and exit the building. In an orderly fashion, residents should go to the designated waiting area for further instructions.
2. Contact the local police/fire department by calling 911. The specific location of the emergency should be given to include the building and room number and the nature of the emergency. The reporting party should give their name and a call-back phone number.
3. Contact Campus Police or Student Services so that the proper departments can be notified about the emergency.
4. In case of smoke, keep a towel easily accessible for emergency use. Bring along your keys and student ID if possible.
5. Do not re-enter the building until it has been cleared by the proper authorities. If you are away from your room when the alarm sounds, do not return to your room.

NOTIFICATION TO COLLEGE COMMUNITY ABOUT AN IMMEDIATE THREAT

If the Chief of Police confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the Eastern Oklahoma State College community, the EOSC Police and/or the President, any Vice-President, Director of Student Life, Director of Communication, or Chief of Police will utilize some or all of the systems described under the Timely Warning Policy (located at page 6) to communicate the threat to the EOSC community or appropriate segment of the community if the threat is limited to a particular building or segment of the population. The EOSC Police Department without delay – and taking into account the safety of the community – determines the content of the notification and initiates the notification system unless issuing a notification will, in the judgment of the responsible authorities (including the President, any Vice-President, Director of Student Life, Director of Communication, or Chief of Police), compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

At least one fire drill will be held each semester in each of the residence halls and once per year, in an alternating pattern with tornado drills, in all other campus buildings. One full scale and one half scale emergency management drills will be conducted each year campus wide. Monthly tests of the RAVE Alert emergency notification test will be conducted in the fall and spring semesters.

MEDICAL EMERGENCIES

Steps to take in a medical emergency:

1. Do not move the patient unless his or her life is in danger.
2. Have someone stay with the patient until help arrives.
3. Call 911. Tell them your name, your exact location and a brief description of the problem. Do not hang up until told to do so.
4. Meet emergency personnel to guide them to the patient.

CAMPUS WIDE EMERGENCY RESPONSE

The purpose of this policy is to establish emergency response procedures for Eastern Oklahoma State College, as required by the Higher Education Opportunity Act of 2008. This policy applies to all students and employees of EOSC.

The goal of this plan is to limit the loss of life and property in the event of an emergency or crisis that affects the operations of the College. The proper use of available resources and personnel is critical to the successful management of Emergency Operations, including, but not limited to:

- Provide maximum preparation to reduce the potential for injury or damage;
- Provide a coordinated, interdisciplinary, and comprehensive response to a critical situation;
- Maximize the effectiveness and immediacy of response to victims;
- Facilitate assistance to the primary, secondary, and tertiary victims;
- Reduce the severity and duration of the trauma to the campus community;
- Provide coordinated internal and external communications;
- Facilitate coordination with external agencies;
- Prepare for post-crisis support, evaluation, and condition;
- Reassure the public and local community;
- Guard the institution's image.

For the purposes of this plan, an emergency is defined as any unplanned or sudden serious event or condition that cannot be controlled by normal responses or measures. Eastern Oklahoma State College's President will have primary responsibility for convening the Emergency Management Team and will manage the institutional response. In the President's absence, a designee would assume these responsibilities. Once a state of emergency is declared, the plan's guidelines are to be implemented by all faculty, staff and students. The procedures contained in this document are guides and should be used as a flexible tool to respond to a variety of circumstances. This plan applies to all College personnel and properties. The City of Wilburton has developed its own plan and the College plan will be incorporated into the overall City plan.

DEFINITIONS OF EMERGENCIES

Listed below are definitions that are to be used as guidelines to assist administrators in determining appropriate responses:

Level 1 Emergency - Any incident/accident that can typically be handled with in- house resources and the response is generally limited to a single building or area. All Level 1 Emergencies must be reported to Eastern Oklahoma State College Campus Police Department and outside agencies if necessary.

Level 2 Emergency - Any incident/accident that typically requires external resources and the response covers a large area or is campus-wide. Level 2 emergencies may disrupt the overall operations of the College and may require major policy considerations and decisions by the central administration.

Level 3 Emergency - Any event, natural or manmade, that will seriously impair or halt the operations of the College. Casualties and/or severe property loss may be expected. A coordinated team effort will be required of various campus services to effectively manage this contingency. Outside emergency support services will be required.

In all cases of a Level 2 or Level 3 Emergency, the Emergency Management Team will convene, and this plan will be executed.

NOTE: ANY incident likely to create media interest must be promptly reported to the Marketing and Communications Office.

The Eastern Oklahoma State College Emergency Management Plan has been developed to manage problems or emergencies in a realistic manner. Crises may affect residents in the geographic vicinity of the College; therefore, it is possible that city, county, state, and federal agencies will not be available for immediate support.
