Eastern Oklahoma State College CONSORTIUM AGREEMENT INSTRUCTIONS

A consortium agreement allows course credits taken at one institution to be used for financial aid purposes at the “home” institution. Normally, the student receives aid only for the home institution enrollment. Each institution must be eligible to participate in the Title IV aid programs.

Generally, credit enrollment and completion requirements must be satisfied with Eastern Oklahoma State College credits only. A consortium agreement will permit credits taken at another institution to be used for financial aid purposes at Eastern Oklahoma State College. However, a consortium agreement between Eastern Oklahoma State College’s Office of Student Financial Aid and another institution’s financial aid office will only be approved if the following conditions are met:

1. The courses you take at the other institution must be a requirement of your degree program and transferable to the Eastern Oklahoma State College; and
2. The courses you take at the other institution are not offered at Eastern Oklahoma State College, or your degree completion will be significantly delayed due to course sequencing and/or prerequisite requirements for Eastern Oklahoma State College courses; and
3. You must be concurrently enrolled for at least three credit hours each semester at Eastern Oklahoma State College.

If you feel the course(s) you are interested in taking elsewhere meet the above requirements, you will want to speak to a Financial Aid Counselor to obtain the Consortium Application Form. You will need to submit the completed form with **ALL** the requested information and signatures for the document to be processed.

Financial aid will only be approved under the consortium agreement for courses required for your degree program at Eastern Oklahoma State College. An approved consortium **DOES NOT** equate to having your host institution’s charges being paid. It is up to you to pay the charges at the host institution.
